

1. Course Identity

Course name	Economic Development Policy		
Faculty	Business and Economics	Study Program	Economics
Code	SIE950	Credit	3
Group	Study Program	Course Status	Elective
Semester	6	Availability	Limited
Learning Method	In Class	Media	Blended
Course Group	Elective Course	Prerequisite	Development Economics

2. Course Description

This course explores the basic principles of development policy in developing countries. It aims to explain the various policy options and to measure the trade-offs between them. This course studies various aspects of development: education, health, labor market, environment, agriculture, investment and financial market. Each topic will learn the real examples from around the world.

3. Graduate Learning Outcome
